Hindustan Coca-Cola Beverages

JOB DESCRIPTION

POSITION TITLE
IGNITE Trainee

DEPARTMENT
Supply Chain – Manufacturing (As per company requirements)

LOCATION
As per company requirements

JOB OBJECTIVE

To lead production and maintenance activities on lines to ensure fulfillment of market demand on time, in full, and with the right quality products at optimum cost.

JOB RESPONSIBILITIES

Safety

- Responsible for safety of equipment and people on the lines.
- Support site leadership team in building a culture of safety.
- Implement safety systems on the shop floor (e.g., Work Permit System, SOPs, WIs, Guards/Interlocking audits).
- Conduct risk assessment, emergency planning, hazard identification, and mitigation.

Quality

- Ensure quality of products, 5S, hygiene, and compliance with Food Safety and GMP requirements.
- Support site leadership team in building a culture of quality.
- Verify compliance with product safety measures.
- Resolve quality issues using structured RCA.

Maintenance

- Maintain line equipment and manage spares at optimum cost.
- Support site leadership team in building a culture of TPM.
- Execute CLTI activities, weekly PM, abnormality identification and mitigation, and RCA for failures.
- Follow individual routines and verify compliance to executive routines.
- Execute projects to improve system line efficiency, reduce water usage ratio, and enhance productivity.
- Conduct preventive and predictive maintenance.

- Ensure optimum utilization of energy resources.

Operations

- Optimize utilization and maximize efficiency (SLE) of man-machine resources by participating in planning processes.
- Support production manager in production/changeover planning to maximize efficiency.
- Achieve production plan compliance.
- Manage RM/PM yields and consumption of consumables.
- Collaborate with departments such as Shipping, Stores, Quality, Maintenance, and HR for smooth operations.
